TIPI FLOOR  
PLANS

# OUR FLOOR PLANS

The tipis create the most stunning space for any event or gathering — from a small intimate backyard wedding or birthday party to a big festival feel shindig or a unique corporate incentive. The beautiful thing about tipis is that they can be linked together creating endless possibilities for different spaces and zones. You might want a chill out lounge tipi complete with a wood fire pit or you may want a stylish bar tipi to create an amazing social focal point for the event. You can find a selection of floor plan in this brochure. These describe just some of the many options - we create a bespoke layout for each event taking into account your preferences and guest numbers. We would love to discuss your event in more detail and are happy to share ideas we have gathered over the years delivering events across New Zealand. The tipis create such a unique venue and atmosphere - we simply love them.

## CAPACITY

Our tipis have many possible layouts to suit any event, wedding or corporate event – from one tipi, to six tipis joined together, with a capacity of up to 300+ seated guests.

## LAYOUTS

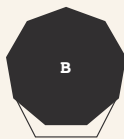

The layouts in this guide only show an example of the configurations available. Ask the Gather & Gold team for a custom layout for your event.

## CONFIGURATIONS

One wonderful quality of the Nordic tipis is the option to choose which sides are raised / lifted (i.e. opened to the magnificent views). In addition, zip doors can be utilised for entrances. When choosing a tipi floor plan, please let us know which configuration you prefer. Each is subject to weather conditions.

all sides raised

entrance sides raised

all sides down

## FURNISHING

Your initial quote will include tipi, matting, lighting and table bench seat sets. Customise your space with some of our fab finishing touches. This floor plan guide shows you some of our most popular layouts including the following:

- Nordic tables
- Fire pit
- Lounge seats & stools
- Dance floor
- Bar area
